2015

Ly Han Hao

FRESH GRADUATED STUDENT

ABOUT ME

I enjoy going on adventures and making new friends after working just a part-time jobs, so it allows me to put the skills and knowledge I've acquired throughout my life—skills that were imparted to me during the learning process—to use in my work. This helps to increase the quality and efficiency of my work. I have always believed that I must continually strive in everything I do, from learning and working to acting morally.
